📅 Scheduling Procedures

To provide a consistent experience for all applicants, exams are administered at an approved testing center. The scheduling system will show you the closest available testing center using your zip code. You will be able to select from this list of centers based on date, time, and testing availability.

You must arrive at the test facility 15 minutes prior to your appointment to begin the check-in process.

If you are more than 30 minutes late for your appointment - you will NOT be permitted to test and your exam fee will be forfeited.

Please be sure to take care of any personal needs before appointment check-in.

Upon arrival, you will be required to present one official, valid piece of identification that meets the following requirements:

- All applicants must present valid, current identification including a photo, date of birth, signature, and residential address. U.S. Citizens or Resident Aliens must present at least one government-issued photo ID to fulfill these requirements. Foreign applicants must present both a valid passport and secondary form of government-issued photo identification. For more detailed information, please consult: http://www.faa.gov/training_testing/testing/media/testing_matrix.pdf

If you are unable to meet the above identification requirements, contact the FAA Support team at faa_support@psionline.com before scheduling your appointment. If you arrive for testing and do not present ID that meets the above requirements, you will not be permitted to test.

You will not be permitted to bring any personal items into the testing room. We also ask that you do not have anyone accompany you to the test facility as there is not adequate space for visitors.
